

Thousands of researchers worldwide use ReviewerCredits to gain recognition for their academic profiles and to reward their peer review efforts. (How ReviewerCredits works)

You register your peer activity. We certify and reward it.

1. Register and enrich your peer reviewer profile for free importing reviews from the last 20 years using your ORCID ID.
2. Instantly register your new article, monograph, and conference paper peer reviews automatically or manually.
3. Receive tangible ReviewerCredits for the reviews you perform. Redeem these against publishing discounts, editorial and translation services, and more.
4. Improve your multilevel cross-publisher performance metrics and Reviewer Contribution Index, and get trusted certification for your academic activity to promote your expert profile across the global network of recognised peer reviewers.
5. Strengthen your peer review and research skills with our unique expert training courses for free.
6. Customise your preferences to receive best-fit review requests from leading journals and earn more recognition and rewards.
